STRIVE-Strengthening Internationalization of Vietnamese Emerging Universities

Sustainability-WP.6. Leader HANU

Project: 101128558 — STRIVE — ERASMUS-EDU-2023-CBHE

3rd Steering Committee, 9-10 December 2024

Luisa Mengoni, AlmaLaurea

Co-funded by the European Union

The Internationalization Virtual Centre

STRIVE Sustainability main outcome

Mission

The internationalization virtual centre will stay as a **reference point for an increased visibility of the international activities of the Vietnamese universities**, as well as a **tool for students, staff and universities to be acquainted with the opportunities given by the Erasmus+ programme**, and a strategic network for a more effective information flow and a tool for **monitoring the international activities** in the higher education sector in the country

Scope

The centre, to be conceived as a simple structure capable of sustaining the engagement of Vietnamese universities' governance in the internationalization of their organizations beyond project life, is expected to:

- ***enhance the visibility of the internationalization strategies*** of the universities
- ***monitor the international activities*** of the targeted universities in the country,
- ***be a reference point for an effective networking*** and sharing of information among the Vietnamese partners and potential stakeholders on the internationalization opportunities offered by the Erasmus+ programme.

Formal step for Centre Creation: Signature of an agreement among Vietnamese partners establishing the virtual centre-M34 Mid November 2026

The Internationalization Virtual Centre

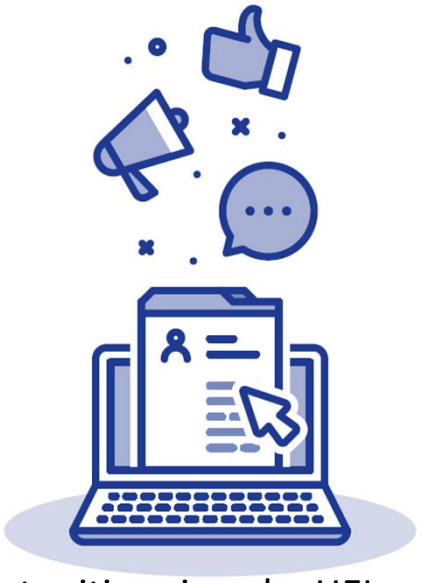
Tools (project deliverables to be developed during project implementation):

- **Info sheet** on international section of Vietnamese universities' websites (mid january 2026), providing information to:
  - *students and staff inbound and outbound mobility* (from application procedure, to visa and practical information)
  - *international relations office staff*: how to apply to Erasmus+ calls for proposals, timetable, how to get new partners

- **Monitoring tool on internationalization** (mid october 2026) that is

  a matrix of key performance indicators on members international cooperation.
  - *among the indicators*: number of exchange programs, number of international students registered per year, country of origin of foreign students, number of collaborative projects, number of international research activities, number of international events hosted, number of international projects submitted per year, number of projects financed per year, number of international network members, number of staff and students involved in outbound mobilities.

Configuration



Online portal administered by HANU with the contribution of the Consortium members (1st SC-KOM Bologna)

Q1: How to construct the portal?

Online Portal sections (a proposal)

- **Informative part** (news for students and universities and stakeholders on opportunities given by HEIs; link to international pages of members; link to EU platform and international organization for call for proposal)
- **Monitoring Tool** (services to governance, universities, students and staff): project deliverable matrix to provide information on the state of art and the type of members cooperation
- **Link to infosheet** (project deliverable) for promoting inbound and outbound mobility of students and staff and information on international cooperation
- **News** (events or call for proposal)
- **Network/partnership creation for cooperation** (for the promotion of cooperation among partners and new members subscription to the centre, create also a zalo chat?)

Co-funded by the European Union

Configuration

Online portal administered by HANU with the contribution of the Consortium members

Q2. What about the management costs of the web platform hosted by HANU?

Q.3. What about the organizational structure?

(honorary chair? Vice-chair?, members –

institutional representatives, university staff)

Management

As by project proposal, an **agreement** aimed at detailing the roles, rights and obligations of each member of the centre will be drafted and signed by the 4 Vietnamese partners' legal representatives by mid November 2026.

Co-funded by the European Union

Resources

As agreed in phase of project proposal, the **founding members will provide their inner human resources, equipment and the needed facilities** for allowing the centre to work beyond project life. The sustainability agreement to be signed will define the conditions

Each member will contribute with inner resources in terms of staff

Q.4. How many resources from VN members?

1 -2 members per VN university? Others?

Roles and functions

All partners update the tools, provide news to the center, promote dissemination activities aiming at enhance the network, put at disposal of the centre agreed resources

HANU is in charge of daily maintainance of the platform, manage and update of platform contents, promote dissemination

EU partners promote dissemination,share news on cooperation possibilities, provide consultancy when necessary

Q.5. Other roles and functions not listed above?

Co-funded by the European Union
